A BIG FIRE.

A Stave and Heading Factory at Portland in Ashes.

A telegram from Portland, Ind., this morning, says that S. H. Adams' large stave and heading factory burned down and is a total loss. The telegraph wires adjoining were melted off, and the Grand Rapids track was warped of out shape

Mr. Adams lost a big flour mill by fire two years ago and is very unfortunate.

Miss Marie Druhot, of Archibald, O., is the guest of her cousins, the Misses Druhots, of East Jefferson street.

Loaning Babies.

They have actually established a business in Paris for the express purpose of loaning babies of all ages from 5 months to 2 years at a given rate per hour, with or without perambulator, according to choice. Some young women given to "carrying-on" came to the conclusion that approachable young mothers invariably attracted more attention than they did themselves. There is something *piquante* about a young mother, something which appeals to the broken-down *blase roues* of the boulevards. Hence the industry, which, by the way, I am told is flourishing beyond expectation. The rates are moderate, and the children are always remarkably well dressed in clothes owned by the association. The babies are supplied by poor women, many of whom are only too glad to see their children well fed in exchange for their services. The price for a baby is 2 francs an hour with perambulator and 1 franc an hour without —a deposit of 10 francs being required with each child, the deposit going to the mother if the child is not returned. You must admit they are ingenius in France.—*Truth.*

THE WHEAT PIT.

The Chicago Market Opens With a Whirl and Wheat Runs Up to $1.18.

CHICAGO, Oct. 3.—Yesterday's excited opening on the board of trade was as a summer zephir to a prairie tornado, in comparison with the wild whirl with which business began to-day. The wheat pit was still the vortex around which the chief interest circled and the December and May options were the ones which attracted everybody's attention. They opened about three cents higher than at last night's close.

December touched $1.18 inside of ten minutes, then weakened almost as rapidly, falling to $1.14. May opened at $1:12@1.14 and followed the same course as December, receding to $1.14½. Half an hour after the opening December sold at $1.15.

DETROIT, Oct. 3.—It has come to light here that J. W. Flynn, president of the board of trade and a prominent democratic politician, has clearrd nearly $250,000 on the Chicago wheat corner.

NEW YORK, Oct. 3.—Wheat is excited and very active, at 4⅛c higher; no failures. No. 2, red, October, $1.10⅛@$1.10¼. Corn is excited, with wheat active, 2⅛c higher, at 50@51½c. Oats, ⅛@¼c higher, firm, at 26@43c.

TOLEDO, O., Oct. 3.—Wheat, higher; active, at $1.12½@1.14. Corn, quiet, at 46c. Oats, steady, at 24½c. Clover-seed, quiet, at $5.60.

CHICAGO, Oct. 3.—The market closed as follows: Wheat, easier, $1.10. Corn, easier, 44½c. Oats, easier, 24½c. Flax-seed, $1.40. Pork, firm, $15.75. Lard, steady, $11.20. October short ribs, $9.45.

Germany's Emperor Visits Vienna and Meets a Warm Welcome.

VIENNA, Oct. 3.—The emperor of Germany arrived here this morning. Emperor Francis Joseph, attired in a Prussian uniform and wearing the decoration of the Prussian order of the Black Eagle, received the emperor at the railway station. Emperor William was clad in the uniform of the Austrian infantry regiment, of which he is honorary colonel, and wearing the decoration of the order of St. Stephen of Hungary and the collar of the Black Eagle. The sovereigns cordially embraced and kissed each other and shook each other's hands.

A LAKE CALAMITY.

A Steamer Goes Down With All on Board.

CHEBOYGAN, Mich., Oct. 3.—The steamer Atlantic, which arrived here this morning, left Alpena at 11 o'clock last night. At that time nothing had been heard of the propeller Wilson and nothing seen of her by the Atlantic on her passage to this city. The Wilson was last seen with the spars gone, and the crew of the Rogers, the Wilson's tow, state positively that they saw the Wilson go down with all hands on board.

PORT SANILAC, Mich., Oct. 3.—The bodies of the peop'e from the barge St. Clair, drowned here yesterday morning, when the sand beach life boat was swamped, have been recovered,

THEY WILL STRIKE.

The Chicago Street Car Conductors to Go on a Strike Saturday.

CHICAGO, Oct. 3.—The north side street car conductors and drivers decided at four o'clock this morning to go out on a strike next Saturday morning. The grievances of the men are two-fold. They oppose the set-car system and demand increased wages. By the "set" car system is meant a schedule or time table, by means of which the men claim to be actually on duty for thirteen hours while they are only paid for twelve hours.

A CRAZY MOTHER.

She Kills Herself and Her Two Children While in a Demented Condition.

BLUE SPRINGS, Neb., Oct. 3.—Mrs. Lulu Poffenbarger, who was in Beatrice attending court, killed her two children and then herself Monday night. The neighbors found the woman dead on her bed room floor yesterday. Her two children, aged four and one, were in bed strangled with a cord. The woman left a note saying she had felt herself going crazy.

Frosts.

MEMPHIS, Tenn.. Oct. 3.—There were light frosts throughout this section this morning but not sufficient to injure the cotton.

CONGRESS.

The Republican Tariff Bill Made Public.

WASHINGTON, Oct. 3.—Mr. Allison, from the committee on finance, reported back the house tariff bill with an amendment in the nature of a substitute. It was placed on the calendar and ordered printed. He said the majority and minority reports to accompany the bill would be filed to-morrow or Friday and gave notice he would call up the bill for consideration Monday next.

Among the additions to the free list are books and pamphlets, printed exclusively in language other than English, braids, plaits, flats, laces, etc., for ornamenting hats, bristles, raw or manufactured.

Bulbs and bulbous roots, not edible eggs and yolks, feathers and downs of all kinds, crude and unmanufactured, jute, jute butts, manilla; all other textile grasses or fibrous substances, unmanufactured or undressed.

Floor matting known as Chinese matting; grease and oils, such as is commonly used in soap making, mine drawing, etc.; human hair, raw, uncleaned and not drawn; mineral waters, not specially enumerated; molasses, testing not above fifty-six degrees; olive oil for manufacturing or mechanical purposes; potash crude, carbonate caustic or hydrate nitate of; salt petre, sulphate of and chlorate of; rags, all not enumerated; sand, tar and pitch of wood, turpentintine.

According to the estimates made by the committee the bill provides for a total reduction of about $75,000,000, made up approximately as follows: Sugar, $27,759,000; free list, $6,500,000; tobacco (internal revenue), $24,500,000; alcohol in arts, $7,000,000.

The internal revenue section relating to tobacco, provides that after the 1st of February, 1888, manufacturers of cigars shall pay a special tax of $3 annually. The tax on cigars, etc., weighing more than three pounds per thousand, to be $1.50 per thousand; on cigarettes, weighing less than three pounds per thousand, fifty cents per thousand paid by the manufacturer.

It repeals all the laws restricting the disposition of tobacco by farmers and producers and all laws imposing taxes on manufactured tobacco and snuff and special taxes required by law to be paid by the manufacturers of and dealers in leaf tobacco, retail dealers in leaf tobacco, dealers in manufactured tobacco, snuff and cigars, peddlers of tobacco, snuff and cigars and manufactured snuff.

It provides for a rebate on all original and unbroken packages held by the manufacturers or dealers at the time the repeal goes into effect.

Alcohol to be used in the industrial arts, is relieved from the payment of Neteral revenues.

There is a prohibition against the use of any distilled spirits upon which internal revenue tax has not been paid in manufacture of tinctures, proprietary articles, wines, liquors, cordials, bitters, or other alcoholic compounds used or sold as beverages.

CALIFORNIA WILD WITH JOY.

The President's Approval of the Chinese Bill Creates Great Enthusiasm.

SAN FRANCISCO, Cal., Oct. 3.—There is tremendous excitement here. The city has gone crazy over Cleveland's approval of the Scott Chinese exclusion bill. The popular enthusiasm is not paralelled by anything in the previous history of this city. Telegrams are pouring in from every town and hamlet. The people have abandoned themselves to unrestrained rejoicing and thanksgiving.

The coast is illuminated and the torch of the workingman eagerly presses to the front of the rejoicing thousand. Cleveland, by one act, has given labor the greatest protection ever accorded it in America. The workers and toilers of the Pacific coast ask their eastern brethren to join them in grand thanksgiving. Night is being turned into day and the whole state of California is ablaze with honor to Cleveland, the grandest American.

AN EASTERN WRECK.

A Passenger Train Leaves the Track and Runs Into the Depot With Fatal Effect.

BATAVIA, N. Y., Oct. 3.—An eastbound passenger train on the New York Central railroad, due here at 8:40 this morning left the track at Byron station, while going at a high rate of speed. It ran into and nearly destroyed the depot at Rochester. A man was seriously injured, but no one was killed.

MORTON ACCEPTS.

The Letter of Acceptance of Levi P. Morton, the Republican Candidate for Vice President.

NEW YORK, Sept. 3.—Hon. Levi P. Morton has written the following letter of acceptance:

RHINECLIFF, N. Y., Oct. 2, 1888.
The Hon. M. M. Estee, and others:

GENTLEMEN:—In making formal acceptance of my nomination as the republican candidate for the vice presidency, I desire to express my appreciation of the confidence reposed in me by the convention. The duties devolving on the president as presiding officer of the senate, and in certain contingencies a participant in the legislation of congress make it proper that the people should know distinctly and unreservedly the political views of the candidate who may be presented for their suffrages. It fortunately happens that this duty for myself is easily discharged by referring to the principles embodied in the resolutions unanimously adopted by the national convention. These resolutions unequivocally comprehensible in character, reflect my personal convictions and have my hearty approval. It is difficult, however, in a political campaign to fix popular attention to the one issue, and in the pending election every voter in the United States clearly sees that the controlling question is whether the protective tariff duties now in force shall be so reduced as to destroy their efficacy or whether those duties shall be restored with such modifications and adjustments as shall better adapt them to the great end of protecting the vast and important industries of the whole country. The republican platform, while recognizing the necessity of reducing the revenue declares that this reduction must not be made at the expense of these industries and of American labor. The American people have now enjoyed the protective system for a longer continuous period than ever before in the history of the national government. The result is that for more than a quarter of a century they have realized a degree of industrial and financial prosperity unprecedented in this country and never equalled in any other. The pressing reason given for once again trying the old experiment of a revenue tariff without protection as a motive or end, is that the present tariff has produced and is producing a surplus in the treasury. But it is not easily within the wisdom of congress to adjust the national income to the national expenditure without sacrificing or even imperiling an industrial system which has brought untold advantages to the country. Admitting that the present tariff by lapse of time and the large expansion of trade which it has stimulated needs revision, is it not wiser and more patriotic to revise it with a careful regard to the interest of protection than with the purpose of lessening its protective features? These are some of the questions which must be answered at the polls in November. For myself, as a citizen and a candidate, I do not hesitate to declare that from long observation I am an unwavering friend of the protective system. In a business life now extending over forty years I have witnessed and compared the effect upon the country of a revenue tariff tending to free trade, with a protective tariff encouraging home industries. Under the former the development of the country has always been arrested, while under the latter it has uniformally been promoted. To the men who earn their bread by the sweat of their brow the difference between the two systems is that of narrowing chances on the one hand and expanding opportunities on the other. Free trade would open America to competition with the whole world. Protection reserves America for the Americans, native and adopted. The industrial system of a country is as sensitive as its public credit. A hostile movement creates distrust in the public mind and confidence, the only basis of successful trade, becomes impaired. New enterprises wither in the bud, capital grows timid, the field of labor is contracted and pressure for employment inevitably reduces the wages of all workingmen. With the views of the convention so frankly expressed in its resolutions upon all other questions of public interest I find myself in hearty accord. In relation to silver and its important bearing upon the national currency, as well as its connection with and influence on the prosperity of larger sections of our common country; in its advocacy of a judicious settlement of the public land policy; in urging the necessity for better coast defences and the duty we owe to the shipping interests of the country, the platform but repeats the principles of the republican party. The republican platform proposes a distinctly American policy; not one of narrowness and bigotry, but one broad and philanthropic—a policy that best helps the whole world by the example of a great, growing powerful nation, founded on the equality of every man before the law. It is for the American people to develop and cultivate the continent to which in the providence of God they have fallen heir to. They should adopt a policy which looks steadily to this great end. With no spirit of narrowness toward other people, but rather in the highest interest of all, they should find under their own flag a field of limitless advance in the direction of the improvement, the prosperity and happiness of the many.

Very respectfully yours,
LEVI P. MORTON.

JUMPING TO CLEVELAND.

Significant Changes Among the Republican Voters in Chicago.

CHICAGO, Ill., Oct. 3.—In a quiet way the work of proselyting for President Cleveland is going on here, but this is not being accomplished by means of brass bands and windy speeches. Hundreds of thoughtful men, who have voted the republican ticket heretofore, will vote for Mr. Cleveland because they believe in him and in tariff reform. Many of them will remain in the republican party, but they will "mugwump it" this fall on the presidential question. In the boot and shoe trade, Elector-at-large C. H. Schwab, a leading boot and shoe merchant, has gathered the names of fifty men in that line who will not vote for General Harrison, though they are republicans; they like Cleveland and think he has made an excellent president, and are in favor of tariff reform and the Mills bill. Mr. Schwab also has a list of manufacturers, professional men and retired merchants who have given him personal assurance of their purpose to cast their ballots for the first time for the democratic candidate. A leading board of trade man has also made up a list of forty names of men on the board who will vote for Mr. Cleveland in preference to General Harrison, although they are republicans. Among the dry goods houses there are many converts, in each case a belief in the need of tariff reform being the cause of the renunciation of republicanism. At Marshall Field & Co.'s, Carson, Pirie, Scott & Co.'s and J. V. Farwell & Co.'s, this being the house in which United States Senator J. V. Farwell has a large interest, the converts are numerous. Marshall Field has been voting with the republicans for many years but will vote for Mr. Cleveland this time.

In many wholesale drug and grocery houses salesmen say they will vote for Mr. Cleveland this time, though they are now and have been republicans. Irish-Americans who supported Blaine largely four years ago are generally for President Cleveland now, and among professional men the change from Harrison to Cleveland is very marked.

A most significant bet was made to-day at the Grand Pacific hotel. State Treasurer Tanner, one of the shrewdest politicians in Illinois, wagered $1,000 with a Mr. Walsh, a liquor dealer, that Fifer would beat Palmer for governor by 10,000 votes. This shows Fifer's friends are not very sanguine. Oglesby beat Carter Harrison four years ago by 14,000. Fifer will esteem himself fortunate if he is victorious by even 1,000.

The Reason Why

Ayer's Pills are so popular is, that while always reliable as a cathartic medicine, they never leave any ill effects. This is because they are purely vegetable, and entirely free from calomel or any other dangerous drug. In all cases, therefore, whether the patient be old or young, they may be confidently administered.

In the Southern and Western States, where derangements of the liver are so general, Ayer's Pills have proved an inestimable blessing. D. W. Baine, New Berne, N. C., writes:

"I suffered a long time with stomach and liver troubles. I tried various remedies, but received no benefit until I commenced taking Ayer's Pills. These pills benefited me at once. I took them regularly for a few months, and my health was completely restored."

Throughout New England, next to lung diseases, Stomach and Bowel Complaints are the most prevalent.

Dyspepsia

and Constipation are almost universal. Mr. Gallacher, a practical chemist, of Roxbury, Mass., who was long troubled with Dyspepsia, writes:

"A friend induced me to try Ayer's Pills, and, after taking one box without much benefit, I was disposed to quit them; but he urged perseverance, and, before I had finished the second box, I began to experience relief. I continued taking them, at intervals, until I had used eleven boxes. Suffice it to say, that I am now a well man, and grateful to your chemistry, which outstrips mine."

The head and stomach are always in sympathy; hence the cause of most of those distressing headaches, to which so many, especially women, are subject. Mrs. Harriet A. Marble, of Poughkeepsie, N. Y., writes that for years she was a martyr to headache, and never found anything to give her more than temporary relief, until she began taking Ayer's Pills, since which she has been in the enjoyment of perfect health.

THE Indianapolis *Sun* says that neither party is satisfied with the political poll of the state, and that $2 bills hold the balance of power.

PRESIDENT CLEVELAND was pretty prompt in signing the Chinese bill and withal his message shows that he has given the subject much thought and consideration.

JUDGE THURMAN will write a letter of acceptance when in humor for that unnecessary task. Mr. Morton should have profited by his delay and spared the country the infliction his letter carries with it.

MR. BLAINE will speak at Goshen on the 10th; Indianapolis, on the 11th; Evansville, on the 13th; New Albany, on the 15th; and Tippecanoe Battleground on the 17th. He has no desire to visit Fort Wayne.

THE reception to be tendered Judge Thurman October 17 should not be viewed in a partisan light by the merchants of Fort Wayne. It will be a harvest for them, and undoubtedly they appreciate the fact, irrespective of politics.

SINGULAR and significant features of the democratic campaign in the east this year are liberal and unrestricted contributions to the campaign fund by the workingmen and factory employes. They are all praying for a reduction of taxes.

LONDON has lately been the scene of several atrocious murders and the great metropolis is shaken to its very depths. The police are powerless to detect the culprits and the worst feature is that the crimes seem to inspire cranks and vicious people to further bloodshed.

HON. LEVI P. MORTON'S letter accepting the nomination for the vice presidency from the republicans is published elsewhere. It is the weakest document ever issued by a candidate and aims solely to mislead voters on the tariff question. It is an ordinary paper anyway it is viewed.

ANNA DICKINSON has not succeeded in pleasing the republicans by her campaign speeches. "She outs with such queer things," says an Ohio paper; and the Richmond, Ind., *Register* remarks that "the republican national committee surprises people by sending such speakers as Miss Dickinson here without knowing what she is going to say."

IN the face of President Cleveland's explicit denial that he uttered the words, "I believe in free trade as I do the Protestant religion," the Daily *News* last evening, repeats the falsehood in an article supplied by the Chicago Home Market club. The *News* owes its readers an explanation and will give them one if its boasted independence amounts to anything.

DAN VOORHEES did not dare to accept Major Calkins' challenge for a public discussion, so the major will go "on his own hook" at the Princess rink on Friday night. Come and hear him.—*Gazette.*

Will the *Gazette* kindly tell us when Major Calkins challenged Mr. Voorhees and publish the challenge, if it exists. The *Gazette* does not know evidently that Mr. Calkins never challenged Senator Voorhees. There was some talk of it by republicans to cover General Hovey's refusal to debate with Colonel Matson. That was the extent of it.

ACCORDING to the latest program the republican tariff bill will be presented to the senate Thursday of this week. The report of the republican members of the finance commitee will be completed at that time, but it will not probably be made public until the next day. Accompanying it will be the report of the democratic minority. It was at first intended to make both the tariff bill and the report public simultaneously, but this plan will be abandoned in view of the fact that their great length will prevent more than a brief abstract from being printed in the newspapers, whereas if given out on different days a much fuller synopsis can be published.

DON M. DICKINSON is enthusiastic over the democratic prospects. He says: "Cleveland's re-election is assured. There is no room for doubt but that we will carry New York, New Jersey and Indiana. The defection that added to Blaine's strength in New York will never help gratify Harrison's ambition. Bourke Cochran and the leaders who were lukewarm in '84 are now red hot for Cleveland. The New Jersey manufacturers are out for tariff reform and Cleveland. Joseph McDonald vouches for Indiana and his statement is assurance double sure. Michigan is all right and will be heard from in November. The party is organized and in splendid trim."

OUR STATESMEN.

How They Are Viewed and Complimented Abroad.

Editor R. D. Dumm, a former proprietor of THE SENTINEL with Hon. Wm. Fleming, has this compliment to a Fort Wayne committee in his paper, the Upper Sandusky *Union:*

Hon. R. C. Bell, Dr. Geo. W. Loag and Hon. Chas. F. Muhler, of Fort Wayne, and prominent representative democrats of Indiana, were in the city last Friday, on their way home from Columbus, whither they had gone as a committee to wait upon the old Roman and secure, if possible, his presence at the monster democratic meeting to be held in Fort Wayne on the 17th of October. The committee was successful in their mission as Judge Thurman has promised to be with them. Among the other notable speakers to be at Fort Wayne on the 17th are Hon. Roger Q. Mills, Speaker Carlisle and their own McDonald. It is designed to be the largest political meeting ever held in Indiana. Messrs. Bell, Loag and Muhler called at the *Union* and we spent a delicious half hour in rehearsing old times. Mr. Bell is one of the ablest attorneys in Fort Wayne with a state reputation as a popular orator; Dr. Loag is the clerk of the courts in his county, and Mr. Muhler, the present mayor of Fort Wayne and has presided over that city for some time. It was the very committee to send after Judge Thurman, for where the irresistable Bob Bell gets in his work something must drop, and this time it was the Old Roman.

National Board of Health.

Prof. Kedzie, of the Michigan University, who personally superintended the examinations of various brands of baking powders on the market, and made an official government report to the national board of health, Washington, D. C., says: "In some brands we found the excrementitious ammonia, in still others we found alum and other foreign ingredients, leaving on our hands, as the results of our labors—Dr. Price's Cream Baking Powder, upon which to fix the seal of purity and and wholesomeness."

Destructive Fire.

ANTWERP, Ohio, Oct. 3.—Early yesterday morning a very destructive conflagration broke out in this city. One entire business block was consumed, which included all the saloons, grocery store of Pocock Bros., Barnett & Chester's agricultural rooms and Yager Bros.' tonsorial parlor. Total loss estimated between $25,000 and $30,000, insurance small. Probable cause, incendiarism.

A Little Joke.

Mr. Henry Rehberg, who owns a large vineyard at Put-in-Bay, has been in the city for a few days on business, and last evening, before leaving, concluded he would present Mr. Pottlitzer, the manager of the commission fruit house, on Columbia street, with two bottles of the wine manufactured by him.

The bottles were safely packed away in his valise and with it he started on his errand of love. He was accompanied by Mr. James Hewes and Mr. James H. Sloan, of the Pittsburg shops. On his way the three stopped at White's Fruit House, where Mr. Rehberg desired to bid good bye to Mr. I. Freiburger, the manager.

He placed his valise on the floor, and, while talking to Mr. F., his two companions opened the valise and substituted a brick-bat for the wine, which they afterwards presented to Mr. Freiburger.

When the party reached the store of Pottlitzer Bros., and Mr. Rehberg opened the valise to make his present to Mr. Pottlitzer, the joke developed itself and was such a good one that the cigars were passed around. Mr. Pottlitzer has the brick-bat and Mr. Freiburger has the wine.

An Officer of the Republican Railroad Club Who Can't Serve.

The republican railroad club held a meeting Saturday evening and elected officers. Among those chosen on that occasion was Mr. James A. Ludington, who was designated as the sergeant-major of the club. His election to the position was without his consent and Mr. Ludington was somewhat surprised when he saw the announcement in the papers.

Although he voted for Mr. Blaine four years ago, he will not cast his vote this year for Mr. Harrison. "I am not training with that crowd," said he to a SENTINEL reporter this morning. "I shall cast my vote this year for Cleveland and Thurman. I do not belong to the Harrison railroad club, and was surprised when I saw I had been elected an officer of it."

Mr. Ludington is a prominent machinist of the Pittsburg shops of this city, and has hitherto acted with the republicans, but will not do so this year.

TAR-OID must not be confounded with the cheap remedies which are prepared on the theory that *Skin Diseases* are caused by *impure blood* which is not true. They have their cause in a want of *vital action* in the skin. TAR-OID restores this action, hence it cures every form of *Skin Disease*, also sores, burns, etc. It is soothing and wonderfully healing—gratifying results follow in every case. It is harmless and can be used with perfect safety by any one. It is superior to all other remedies. There is positively nothing else like it.

TAR-OID is a sure cure for piles. It never fails. We warrant a cure or refund the money. It gives immediate relief. It is perfectly safe, yet powerful in its action.

honestly admit that they can't cure Rheumatism and Neuralgia. Others say they can but—don't. Athlophoros says nothing but—*cures.* That's the secret of its success. Years of trial have *proved* it to be a *quick, safe, sure* cure.

Onions and Their Kindred.

A writer in one of our exchanges recommends boiled or roasted onions as a most excellent remedy for a cough, and for the clogging of the bronchial tubes which is usually the cause of the cough. He says that if onions are eaten freely at the outset of a cold they may break it up.

He also quotes a medical writer as recommending the giving of onions to children three or four times a week; young onions to be eaten raw, and to be cooked when they get too large and strong.

Another writer says, "During unhealthy seasons, when diphtheria and like contagious diseases prevail, onions ought to be eaten in the spring of the year at least once a week. Onions are invigorating and prophylactic beyond description."

Whether the virtues here ascribed to onions are exaggerated or not, it is certain that the onions contain an oil which acts strongly on the secretions of the bronchial tubes, kidneys, and skin. This oil is stimulant and tonic, and thus promotes digestion. The onion is also nutritious, being rich in nitrogenous elements and in sugar. Roasted, it makes, with oil, a stimulating poultice for suppurating ulcers.

In warm countries its flavor is more delicate, and it is extensively used for food. In Spain and Portugal it is often eaten raw, and, with a piece of bread, forms the dinner of the working people. As boiling largely dissipates the oil, when used medicinally it should be roasted rather than boiled.

Belonging to the onion family, and the most self-asserting member of it, is garlic, from which, mainly, the oil is obtained, and hence is called "oil of garlic." It is extensively used for food in southern European countries.

Another member of the class is the leek, the mildest of all. It has no proper bulb. It is used mainly for the lower part of the stem, which is blanched and enlarged by earthing. It is a favorite among the Welsh and has become so with the Scotch.

Cives, or chives, constitute still another member of the family. They are very small, and grow wild on the banks of rivers in some parts of Europe and Asia. They have pretty flowers, bluish red, and sometimes flesh colored, and are often cultivated as borders for plots. The young leaves are also used for flavoring soups and dishes, and they may be cut repeatedly in the season. All these plants have the same general characteristics as the onion.—*Youth's Companion.*

Women Who Work for Their Husbands.

If a man is a real man it is safe for a woman to continue earning wages after she is married, but I think there are hundreds of men to-day, yes, thousands, who have been ruined because they were not compelled to support their wives. If a man who earns small wages marries a woman capable of earning as much as himself, there are nine chances to one that he will develop extravagant habits because of the added income of his wife. If they could agree and hold to the decision that they were to live on the husband's income and let the wages of the wife accumulate as capital for business in which they both could engage it would be well; but their wages would probably be largely dissipated in personal adornment, the passion for which, especially among the middle classes, is the bane of the American people. There is one class of women wage-earners to whom I have given much attention who suffer considerably through their own ignorance. I refer to the married women who work in factories, or at home, making underclothing and other articles, and who supplement their husband's wages in order to cover their own deficient knowledge of housekeeping. Such women were wage-earners before they were married, and never had an opportunity to learn how to manage a house, so that after marriage they have to earn money to supply their want of knowledge, not only of cooking, but of sewing. Such women buy ready-made clothes for themselves and their children, which, of course, are not so durable as could be had for the same money if they made them themselves. Not knowing how to economize in cooking, they spend more money in that way than they should. Out of three hundred women wage-earners I visited in tenement houses only five claimed they were able to make bread, and only one really did make it. Only two were able to cut and make garments for themselves and their children. I think that these women are all conscious of their deficiencies, but they do not know how to overcome them. They have some spare time but they waste it. Their cooking is of the most primitive and unwholesome description, and their meals are supplemented with beer, which is looked upon as just as much an article of diet as bread.—*The Epoch.*

The Gray Hair Puller.

Possibly the most unique method of earning a living known is that adopted by a big, rosy, 20-year-old blonde, who finds engagements with women just lamenting their first gray hairs, to weed out, so to speak, those obnoxious reminders of advancing years. The gray hair puller is gentle in methods of treatment, and makes periodic visits at intervals of a few weeks, spending from half an hour to two or three hours, letting down the hair, combing it out and spying for tell-tale silver threads. She carries an innocent-looking little reticule, which contains various glycerine and rose water preparations for a healing application when the work of torture has been done. It is not especially disagreeable work, and it is said to pay. —*Kansas City Journal.*

"I can not praise Hood's Sarsaparilla half enough," says a mother whose son, almost blind with scrofula, was cured by this medicine.

Blood-Letting for Pneumonia.

Pneumonia, a disease which is justly dreaded, is at present receiving much attention from physicians. At a recent meeting of the Medical Association at Baltimore the question as to whether it is contagious was discussed, and now the *Medical Record*, following the example of Dr. Hartshorne, argues in favor of blood-letting in opposition to the modern treatment of the disease. It appears that from 1845 to 1847, when bleeding prevailed in the treatment of pneumonia, but one person in sixteen died, while, on the contrary, from 1884 to 1886, after this treatment had been abandoned, the proportion of deaths was 1 in 3.2. Facts are stubborn things; and the question arises whether, in every case, we have always gained by ignoring the simple and old-fashioned methods of healing.

"I have taken, within the past year, several bottles of Ayer's Sarsaparilla, and find it admirably adapted to the needs of an impoverished system. I am convinced that this preparation, as a blood purifier, is unequaled." C. C. Dame, Pastor Congregational church, Andover, Me.

Advice to Mothers.—Mrs. Winslow's Soothing Syrup should always be used when children are cutting teeth. It relieves the little sufferer at once; it produces natural, quiet sleep by relieving the child from pain, and the little cherub awakes as "bright as a button." It is very pleasant to take. It sooths the child, softens the gums, allays all pain, relieves wind, regulates the bowels and is the best known remedy for diarrhœa, whether arising from teething or other causes. Twenty-five cents a bottle.

"I must admit there are some advantages in being a dude, after all, George," said Mildred to her accepted lover.

NOT A PIMPLE ON HIM NOW.

Bad with Eczema. Hair all gone. Scalp covered with eruptions. Thought his hair would never grow. Cured by Cuticura Remedies. Hair splendid and not a pimple on him.

I cannot say enough in praise of the Cuticura Remedies. My boy, when one year of age, was so bad with eczema that he lost all of his hair. His scalp was covered with eruptions, which the doctors said was scald head, and that his hair would never grow again. Despairing of a cure from physicians, I began the use of the Cuticura Remedies, and, I am happy to say, with the most perfect success. His hair is now splendid and there is not a pimple on him. I recommend the Cuticura Remedies to mothers as the most speedy, economical, and sure cure for all skin diseases of infants and children, and feel that every mother, who has an afflicted child will thank me for so doing.

Severe Scalp Disease Cured.

A few weeks ago my wife suffered very much from a cutaneous disease of the scalp, and received no relief from the various remedies she used until she tried Cuticura. There has been no return of the disease, and Cuticura ranks No. 1 in our estimation for diseases of the skin.

Catarrhal Dangers.

To be freed from the dangers of suffocation while lying down; to breath freely, sleep soundly and undisturbed; to rise refreshed, head clear, brain active and free from pain or ache; to know that no poisonous, putrid matter defiles the breath and rots away the delicate machinery of smell, taste and hearing; to feel that the system does not, through its veins and arteries, suck up the poison that is sure to undermine and destroy, is indeed a blessing beyond all other human enjoyments. To purchase immunity from such a fate should be the object of all afflicted. But those who have tried many remedies and physicians despair of relief or cure.

Sanford's Radical Cure meets every phase of Catarrah, from a simple head cold to the most loathsome and destructive stages. It is local and constitutional. Instant in relieving, permanent in curing, safe, economical and never failing.

Sanford's Radical Cure consists of one bottle of the Radical Cure, one box of Catarrhal Solvent, and one Improved Inhaler, all wrapped in one package, with treatise and directions, and sold by all druggists for $1.00.

Have You Any Idea What It Costs

TO MAKE A CHICAGO DAILY NEWS?

You haven't? Well, let us give you just a glimpse into the business, perhaps it will interest you.

To begin with, the work of the paper is divided into Seventeen Different Departments, each under its own responsible Superintendent. Let us take them in order as they stand on the weekly pay-roll:—

1. **The Editorial Department.**—This includes managing editors, city editors, telegraph editors, exchange editors, editorial writers, special writers, and about thirty reporters. THE DAILY NEWS staff is admittedly without a superior in the West, and numbers 56
2. **The Telegraph Room.**—To save time special wires are run into THE DAILY NEWS building, and the paper's own operators take the messages and hand them immediately to the telegraph editor. The number of operators is 3
3. **The Compositor's Room.**—When "copy" has passed the hands of the proper revising editor it goes to the type-setter. There are a good many of him in THE DAILY NEWS office—on an average . . 73
4. **The Linotype Room.**—But the compositor doesn't do all the type-setting. The "Linotype" machine "sets type" by casting a-lines-of-type, on somewhat the same principle as the type-founder casts a single type. Fourteen of these machines are in use in THE DAILY NEWS office, and the number of persons required in this department is 29
5. **The Artists' and Engravers' Department.**—But the metropolitan daily now gives its readers not only reading matter, but also illustrations. By the aid of good artists, zinc etchers and photography by electric light THE DAILY NEWS is now printing the best newspaper illustrations in America. This takes the best service of skilled workers to the number of 7
6. **The Stereotype Foundry.**—The matter type and pictures being now "locked up" in the "forms" the work is next transferred to the foundry. A metropolitan daily no longer prints from its type. In order to print a large edition quickly it is necessary to multiply the [illegible] and this is accomplished by casting [illegible] stereotyped plates, from which, after [illegible] been fastened to the presses, the [illegible]. Of stereotypers THE DAILY NEWS [illegible] . . . 8
7. **The Press Room.**—THE DAILY NEWS uses six double perfecting presses, capable of printing 100,000 complete papers per hour. [illegible] these there are required men to the number of . . . . 2[illegible]
8. **The Mailing and Delivery Department.**—"The mailers" and the delivery clerks handle over a million papers a week. The force numbers 25
9. **The Engine Room.**—To supply the motive power requires three steam boilers of 175 horse-power capacity, and three engines with an aggregate of [illegible] horse-power. All departments are lighted by the Edison incandescent system, which here comprises three dynamo machines and 500 lamps. The employes of this department number 5
10. **The Circulation Department.**—The paper is now a manufactured article, and it is the business of this department to develop the market for it. The average number of workers is 16
11. **The Subscription Room.**—All the subscriptions from out-of-town, whether of individual readers or wholesale news agents pass through this department, and this department employs on the average . . . 17
12. **The Business Office.**—The general clerical work of the paper, such as receiving and caring for the advertisements—of which over fifteen hundred are received and handled every day—receiving and paying out cash, the general bookkeeping of the business, requires a counting-room force of 27
13. **The Care of Building** requires the constant service of three janitors 3
14. **The Watchman.**—To insure perfect protection against risk of fire two watchmen are constantly on duty 2
15. **The New York Office.** This engages the entire time of a general manager and assistant 2
16. **The Washington Bureau.**—In charge of its own special Washington staff correspondent 1
17. **The Milwaukee Bureau.**—To facilitate Northwestern news gathering, one man 1

From which it appears that the number of regular employes is 302

And the pay roll runs from $5,500 to $6,000 per week, aggregating during the year $300,000.

Then there is even a larger annual expenditure for white paper, and telegraph and cable tolls sometimes run nearly a thousand dollars a week. Take it all together the expenditures of THE DAILY NEWS for the year 1888 will vary very little from $900,000.

The foregoing takes no account of the special correspondents at hundreds of places throughout the country; of European correspondents; of fifteen hundred agents throughout the Northwest who distribute THE DAILY NEWS to its out of town [illegible]; of two hundred city [illegible] wholesale city dealers with their horses and wagons; of one hundred and fifty branch advertisement [illegible], all connected with the main office by telephone, nor of the about three thousand newsboys [illegible] selling THE DAILY NEWS in Chicago. This is what it costs the publisher to make a CHICAGO DAILY [illegible] buy it one cent a day. Measured by the cost of its production, THE DAILY NEWS [illegible] The Chicago Daily News is sold by all newsdealers, or will be mailed, postage [illegible]

The doctor has also taken a prominent position on the editorial staff of the *Journal of Medicine*, published in that city. Dr. Neal Hardy is an eminent and skillful physician and surgeon who enjoys a state reputation in Ohio, and his connection with the Fort Wayne Medical college will certainly give it additional prestige. Aside from professional prominence, the doctor is a gentleman of many brilliant parts in other respects, and Fort Wayne is to be congratulated upon its good fortune in securing his presence as one of its citizens. It is said that a branch of the Salvation Army will soon establish itself in this city and that they will parade the streets with rattling drums and tambourines as they did of yore. If this is so our political clubs will have to retire from the field when they are out on parade, for the drum corps of the Hendricks and Tippecanoe clubs can not equal them in noise.

The Jeffersonians of Wayne township and the Sixth and Seventh wards have now completed arrangements for their grand democratic rally, bonfire, pole raising and fire works on the Hamilton commons, on Thursday evening, Oct. 11, 1888. Two grand stands will be erected at different points, from which the citizens will be addressed by Hon. O. L. Ballou, C. M. Dawson, Henry Colerick, Robert Lowry, and Anselm Fuelber.

SWITCHED OFF.

Official Changes on the Muncie, and Mr. Evans is Honored.

THE SENTINEL wants to commend Supt. W. W. Worthington's management of the Muncie railroad and its affairs very heartily. He has the happy faculty of rewarding those about him and does it with a grace that makes his work all the more manly. A vacancy in one of the offices of his line always means a promotion for the most deserving. He has sent out such men as Mr. Bruce Beamer, Mr. Robert Kinnaird and Mr. Sam Wikel, an elegant gentleman, succeeds them in the line of promotion. Some days ago Mr. Charles Hoffman, long the auditor of the road and a popular and faithful one at that, tendered his resignation and Supt. Worthington appoints his chief clerk, Mr. John M. Evans, to succeed Mr. Hoffman. Mr. Evans is a very pleasant young gentleman, always agreeable and cannot fail to win wide favor in his new position. Mr. Hoffman will engage in business at Denver, Col.

Mr. Hoffman has purchased an interest in an extensive harness business in that city, and will leave for his new western home as soon as he can arrange his property affairs here. He is a thorough business man, is well met socially, and has hosts of friends. He will be an acquisition to the business community of Denver, and will reach the summit of mercantile fame if such a thing is possible.

THE SENTINEL sends its best wishes with him, and as heartily greets Mr. Evans, the young man who succeeds him in this city, who has earned his new honors by an upright career and devotion to his duties.

COL. C. C. MATSON.

The Democratic Standard Bearer in the City.

Among the callers at the democratic headquarters to-day were Col. C. C. Matson, democratic candidate for governor, and Col. John R. East, of Bloomington, one of the prominent democrats of the state.

They spoke at Decatur last night to a great meeting and were in the best of spirits.

"I find the democrats aroused and loyal everywhere," said Colonel Matson, "and could not have our prospects brighter if I were to fix them myself. The republicans are very active and are working hard. I have not the slightest doubt that the state will go democratic and every day strengthens my faith."

Colonel East spoke most encouragingly of the situation, and could not devise any way to accomplish democratic defeat while the people are as watchful as they are at present.

The distinguished visitors were tendered quite an ovation at the headquarters and at the Wayne house. Colonel Matson is personally popular in this city, and deserves to be, for no finer gentleman lives than the gallant soldier candidate.

Colonel Matson and Colonel East speak at Auburn to-night, and just before their departure Mr. Matson remarked, "I will be in the city to greet Judge Thurman Oct. 17."

Miss Molly Weyer Vindicated.

The suit of Miss Molly Weyer vs. Telekla Max Manning, and also the suit of Miss Weyer vs. Caroline Pratt for defamation of character, was called in the circuit court yesterday, before Judge O'Rourke and a jury. In neither case did the defendant attempt to justify, and a judgment was rendered and entered in each case against the defendants and in favor of Miss Weyer, vindicating her good name and character, which is hailed with delight and satisfaction by her numerous friends and acquaintances throughout the city, and wherever she is known.

A. Weber, of the Pittsburg pattern shops, has been on the sick list for several days.

The Pittsburg pay car and Judge Thurman will both be here on the 17th of this month.

The Canadian Atlantic railroad up in Canada is selling excursion tickets from Ottawa, Ont., to New York for $1. The tickets are good for thirty days. This is the result of a cut rate war.

The corpse of Mrs. Thomas M. Evans, whose death occurred at Oswego, was brought in this morning on the Wabash and transferred to the Grand Rapids to be taken to Kendallville.

David Niel, the man whose death by a railroad accident near Upper Sandusky was noted yesterday, resides at Valencia, Kansas. He was visiting friends in Ohio at the time of his death.

Mr. Lawrence Baker, whose death occurred this morning, was an employe of the Bass works and his death is universally regretted among the employes of the establishment where he was very popular.

A bet of $10 was made yesterday between Mr. J. M. Singmaster, of the Pittsburg copper shops, and Mr. Geo. Slater, of the machine shops, on the result of the election in Indiana next month. The former bet that Indiana would go for Cleveland.

Capt. Boltz, of the Olds wheel works, tells us that he was in the employ of the Pennsylvania Railroad company from 1875 to 1880. This may be sufficient to entitle the captain to train with the Harrison railroad club, but it does not prove that he is a railroader now.

The president has signed the act to create boards of arbitration or commissions for settling controversies and differences between railroad corporations and other common carriers engaged in inter-state and territorial transportation of property or passengers and their employes.

Mr. John M. Evans has been appointed to succeed Mr. Charles Hoffman as auditor of the Muncie road. Mr. Evans has been connected with the road for a number of years. He is a careful accountant and a capable gentleman and his appointment to the position is an excellent one. Mr. Hoffman will engage in the harness business, at Denver, Col.

Beware of Scrofula

Scrofula is probably more general than any other disease. It is insidious in character, and manifests itself in running sores, pustular eruptions, boils, swellings, enlarged joints, abscesses, sore eyes, etc. Hood's Sarsaparilla expels all trace of scrofula from the blood, leaving it pure, enriched, and healthy.

"I was severely afflicted with scrofula, and over a year had two running sores on my neck. Took five bottles Hood's Sarsaparilla, and am cured." C. E. LOVEJOY, Lowell, Mass.

C. A. Arnold, Arnold, Me., had scrofulous sores for seven years, spring and fall. Hood's Sarsaparilla cured him.

Salt Rheum

Is one of the most disagreeable diseases caused by impure blood. It is readily cured by Hood's Sarsaparilla, the great blood purifier.

William Spies, Elyria, O., suffered greatly from erysipelas and salt rheum, caused by handling tobacco. At times his hands would crack open and bleed. He tried various preparations without aid; finally took Hood's Sarsaparilla, and now says: "I am entirely well."

"My son had salt rheum on his hands and on the calves of his legs. He took Hood's Sarsaparilla and is entirely cured." J. B. Stanton, Mt. Vernon, Ohio.

Hood's Sarsaparilla

Loaning Babies.

They have actually established a business in Paris for the express purpose of loaning babies of all ages from 5 months to 2 years at a given rate per hour, with or without perambulator, according to choice. Some young women given to "carrying-on" came to the conclusion that approachable young mothers invariably attracted more attention than they did themselves. There is something *piquante* about a young mother, something which appeals to the broken-down *blase roues* of the boulevards. Hence the industry, which, by the way, I am told is flourishing beyond expectation. The rates are moderate, and the children are always remarkably well dressed in clothes owned by the association. The babies are supplied by poor women, many of whom are only too glad to see their children well fed in exchange for their services. The price for a baby is 2 francs an hour with perambulator and 1 franc an hour without —a deposit of 10 francs being required with each child, the deposit going to the mother if the child is not returned. You must admit they are ingenius in France.—*Truth.*

THE WHEAT PIT.

The Chicago Market Opens With a Whirl and Wheat Runs Up to $1.18.

CHICAGO, Oct. 3.—Yesterday's excited opening on the board of trade was as a summer zephir to a prairie tornado, in comparison with the wild whirl with which business began to-day. The wheat pit was still the vortex around which the chief interest circled and the December and May options were the ones which attracted everybody's attention. They opened about three cents higher than at last night's close.

December touched $1.18 inside of ten minutes, then weakened almost as rapidly, falling to $1.14. May opened at $1:12@1.14 and followed the same course as December, receding to $1.14¼. Half an hour after the opening December sold at $1.15.

DETROIT, Oct. 3.—It has come to light here that J. W. Flynn, president of the board of trade and a prominent democratic politician, has cleared nearly $250,000 on the Chicago wheat corner.

NEW YORK, Oct. 3.—Wheat is excited and very active, at 4¼c higher; no failures. No. 2, red, October, $1.10¼@ $1.10¼. Corn is excited, with wheat active, 2½c higher, at 50@51½c. Oats, ¼@½c higher, firm, at 26@43c.

TOLEDO, O., Oct. 3.—Wheat, higher; active, at $1.12½@1.14. Corn, quiet, at 46c. Oats, steady, at 24½c. Clover-seed, quiet, at $5.60.

CHICAGO, Oct. 3.—The market closed as follows: Wheat, easier, $1.10. Corn, easier, 44½c. Oats, easier, 24½c. Flax-seed, $1.40. Pork, firm, $15.75. Lard, steady, $11.20. October short ribs, $9.45.

CONGRESS.

The Republican Tariff Bill Made Public.

WASHINGTON, Oct. 3.—Mr. Allison, from the committee on finance, reported back the house tariff bill with an amendment in the nature of a substitute. It was placed on the calendar and ordered printed. He said the majority and minority reports to accompany the bill would be filed to-morrow or Friday and gave notice he would call up the bill for consideration Monday next.

Among the additions to the free list are books and pamphlets, printed exclusively in language other than English, braids, plaits, flats, laces, etc., for ornamenting hats, bristles, raw or manufactured.

Bulbs and bulbous roots, not edible eggs and yolks, feathers and downs of all kinds, crude and unmanufactured, jute, jute butts, manilla; all other textile grasses or fibrous substances, unmanufactured or undressed.

Floor matting known as Chinese matting; grease and oils, such as is commonly used in soap making, mine drawing, etc.; human hair, raw, uncleaned and not drawn; mineral waters, not specially enumerated; molasses, testing not above fifty-six degrees; olive oil for manufacturing or mechanical purposes; potash crude, carbonate caustic or hydrate nitate of; salt petre, sulphate of and chlorate of; rags, all not enumerated; sand, tar and pitch of wood, turpentintine.

According to the estimates made by the committee the bill provides for a total reduction of about $75,000,000, made up approximately as follows: Sugar, $27,759,000; free list, $6,500,000; tobacco (internal revenue), $24,500,000; alcohol in arts, $7,000,000.

The internal revenue section relating to tobacco, provides that after the 1st of February, 1888, manufacturers of cigars shall pay a special tax of $3 annually. The tax on cigars, etc., weighing more than three pounds per thousand, to be $1.50 per thousand; on cigarettes, weighing less than three pounds per thousand, fifty cents per thousand paid by the manufacturer.

It repeals all the laws restricting the disposition of tobacco by farmers and producers and all laws imposing taxes on manufactured tobacco and snuff and special taxes required by law to be paid by the manufacturers of and dealers in leaf tobacco, retail dealers in leaf tobacco, dealers in manufactured tobacco, snuff and cigars, peddlers of tobacco, snuff and cigars and manufactured snuff.

It provides for a rebate on all original and unbroken packages held by the manufacturers or dealers at the time the repeal goes into effect.

Alcohol to be used in the industrial arts, is relieved from the payment of Ateral revenues.

There is a prohibition against the use of any distilled spirits upon which internal revenue tax has not been paid in manufacture of tinctures, proprietary articles, wines, liquors, cordials, bitters, or other alcoholic compounds used or sold as beverages.

CALIFORNIA WILD WITH JOY.

The President's Approval of the Chinese Bill Creates Great Enthusiasm.

SAN FRANCISCO, Cal., Oct. 3.—There is tremendous excitement here. The city has gone crazy over Cleveland's approval of the Scott Chinese exclusion bill. The popular enthusiasm is not paralelled by anything in the previous history of this city. Telegrams are pouring in from every town and hamlet. The people have abandoned themselves to unrestrained rejoicing and thanksgiving.

The coast is illuminated and the torch of the workingman eagerly presses to the front of the rejoicing thousand. Cleveland, by one act, has given labor the greatest protection ever accorded it in America. The workers and toilers of the Pacific coast ask their eastern brothron to join them in grand thanksgiving. Night is being turned into day and the whole state of California is ablaze with honor to Cleveland, the grandest American.

MORTON ACCEPTS.

The Letter of Acceptance of Levi P. Morton, the Republican Candidate for Vice President.

NEW YORK, Sept. 3.—Hon. Levi P. Morton has written the following letter of acceptance:

RHINECLIFF, N. Y., Oct. 2, 1888.

The Hon. M. M. Estee, and others:

GENTLEMEN:—In making formal acceptance of my nomination as the republican candidate for the vice presidency, I desire to express my appreciation of the confidence reposed in me by the convention. The duties devolving on the president as presiding officer of the senate, and in certain contingencies a participant in the legislation of congress make it proper that the people should know distinctly and unreservedly the political views of the candidate who may be presented for their suffrages. It fortunately happens that this duty for myself is easily discharged by referring to the principles embodied in the resolutions unanimously adopted by the national convention. These resolutions unequivocally comprehensible in character, reflect my personal convictions and have my hearty approval. It is difficult, however, in a political campaign to fix popular attention to the one issue, and in the pending election every voter in the United States clearly sees that the controlling question is whether the protective tariff duties now in force shall be so reduced as to destroy their efficacy or whether those duties shall be restored with such modifications and adjustments as shall better adapt them to the great end of protecting the vast and important industries of the whole country. The republican platform, while recognizing the necessity of reducing the revenue declares that this reduction must not be made at the expense of these industries and of American labor. The American people have now enjoyed the protective system for a longer continuous period than ever before in the history of the national government. The result is that for more than a quarter of a century they have realized a degree of industrial and financial prosperity unprecedented in this country and never equalled in any other. The pressing reason given for once again trying the old experiment of a revenue tariff without protection as a motive or end, is that the present tariff has produced and is producing a surplus in the treasury. But it is not easily within the wisdom of congress to adjust the national income to the national expenditure without sacrificing or even imperiling an industrial system which has brought untold advantages to the country. Admitting that the present tariff by lapse of time and the large expansion of trade which it has stimulated needs revision, is it not wiser and more patriotic to revise it with a careful regard to the interest of protection than with the purpose of lessening its protective features? These are some of the questions which must be answered at the polls in November. For myself, as a citizen and a candidate, I do not hesitate to declare that from long observation I am an unwavering friend of the protective system. In a business life now extending over forty years I have witnessed and compared the effect upon the country of a revenue tariff tending to free trade, with a protective tariff encouraging home industries. Under the former the development of the country has always been arrested, while under the latter it has uniformally been promoted. To the men who earn their bread by the sweat of their brow the difference between the two systems is that of narrowing chances on the one hand and expanding opportunities on the other. Free trade would open America to competition with the whole world. Protection reserves America for the Americans, native and adopted. The industrial system of a country is as sensitive as its public credit. A hostile movement creates distrust in the public mind and confidence, the only basis of successful trade, becomes impaired. New enterprises wither in the bud, capital grows timid, the field of labor is contracted and pressure for employment inevitably reduces the wages of all workingmen. With the views of the convention so frankly expressed in its resolutions upon all other questions of public interest I find myself in hearty accord. In relation to silver and its important bearing upon the national currency, as well as its connection with and influence on the prosperity of larger sections of our common country; in its advocacy of a judicious settlement of the public land policy; in urging the necessity for better coast defences and the duty we owe to the shipping interests of the country, the platform but repeats the principles of the republican party. The republican platform proposes a distinctly American policy; not one of narrowness and bigotry, but one broad and philanthropic—a policy that best helps the whole world by the example of a great, growing powerful nation, founded on the equality of every man before the law. It is for the American people to develop and cultivate the continent to which in the providence of God they have fallen heir to. They should adopt a policy which looks steadily to this great end. With no spirit of narrowness toward other people, but rather in the highest interest of all, they should find under their own flag a field of limitless advance in the direction of the improvement, the prosperity and happiness of the many.

Very respectfully yours,
LEVI P. MORTON.

JUMPING TO CLEVELAND.

Significant Changes Among the Republican Voters in Chicago.

CHICAGO, Ill., Oct. 3.—In a quiet way the work of proselyting for President Cleveland is going on here, but this is not being accomplished by means of brass bands and windy speeches. Hundreds of thoughtful men, who have voted the republican ticket heretofore, will vote for Mr. Cleveland because they believe in him and in tariff reform. Many of them will remain in the republican party, but they will "mugwump it" this fall on the presidential question. In the boot and shoe trade, Elector-at-large C. H. Schwab, a leading boot and shoe merchant, has gathered the names of fifty men in that line who will not vote for General Harrison, though they are republicans; they like Cleveland and think he has made an excellent president, and are in favor of tariff reform and the Mills bill. Mr. Schwab also has a list of manufacturers, professional men and retired merchants who have given him personal assurance of their purpose to cast their ballots for the first time for the democratic candidate. A leading board of trade man has also made up a list of forty names of men on the board who will vote for Mr. Cleveland in preference to General Harrison, although they are republicans. Among the dry goods houses there are many converts, in each case a belief in the need of tariff reform being the cause of the renunciation of republicanism. At Marshall Field & Co.'s, Carson, Pirie, Scott & Co.'s and J. V. Farwell & Co.'s, this being the house in which United States Senator J. V. Farwell has a large interest, the converts are numerous. Marshall Field has been voting with the republicans for many years but will vote for Mr. Cleveland this time.

In many wholesale drug and grocery houses salesmen say they will vote for Mr. Cleveland this time, though they are now and have been republicans. Irish-Americans who supported Blaine largely four years ago are generally for President Cleveland now, and among professional men the change from Harrison to Cleveland is very marked.

A most significant bet was made today at the Grand Pacific hotel. State Treasurer Tanner, one of the shrewdest politicians in Illinois, wagered $1,000 with a Mr. Walsh, a liquor dealer, that Fifer would beat Palmer for governor by 10,000 votes. This shows Fifer's friends are not very sanguine. Oglesby beat Carter Harrison four years ago by 14,000. Fifer will esteem himself fortunate if he is victorious by even 1,000.

The Reason Why

Ayer's Pills are so popular is, that while always reliable as a cathartic medicine, they never leave any ill effects. This is because they are purely vegetable, and entirely free from calomel or any other dangerous drug. In all cases, therefore, whether the patient be old or young, they may be confidently administered.

In the Southern and Western States, where derangements of the liver are so general, Ayer's Pills have proved an inestimable blessing. D. W. Baine, New Berne, N. C., writes:

"I suffered a long time with stomach and liver troubles. I tried various remedies, but received no benefit until I commenced taking Ayer's Pills. These pills benefited me at once. I took them regularly for a few months, and my health was completely restored."

Throughout New England, next to lung diseases, Stomach and Bowel Complaints are the most prevalent.

Dyspepsia

and Constipation are almost universal. Mr. Gallacher, a practical chemist, of Roxbury, Mass., who was long troubled with Dyspepsia, writes:

"A friend induced me to try Ayer's Pills, and, after taking one box without much benefit, I was disposed to quit them; but he urged perseverance, and, before I had finished the second box, I began to experience relief. I continued taking them, at intervals, until I had used eleven boxes. Suffice it to say, that I am now a well man, and grateful to your chemistry, which outstrips mine."

The head and stomach are always in sympathy; hence the cause of most of those distressing headaches, to which so many, especially women, are subject. Mrs. Harriet A. Marble, of Poughkeepsie, N. Y., writes that for years she was a martyr to headache, and never found anything to give her more than temporary relief, until she began taking Ayer's Pills, since which she has been in the enjoyment of perfect health.

THE Indianapolis *Sun* says that neither party is satisfied with the political poll of the state, and that $2 bills hold the balance of power.

PRESIDENT CLEVELAND was pretty prompt in signing the Chinese bill and withal his message shows that he has given the subject much thought and consideration.

JUDGE THURMAN will write a letter of acceptance when in humor for that unnecessary task. Mr. Morton should have profited by his delay and spared the country the infliction his letter carries with it.

MR. BLAINE will speak at Goshen on the 10th; Indianapolis, on the 11th; Evansville, on the 13th; New Albany, on the 15th; and Tippecanoe Battleground on the 17th. He has no desire to visit Fort Wayne.

THE reception to be tendered Judge Thurman October 17 should not be viewed in a partisan light by the merchants of Fort Wayne. It will be a harvest for them, and undoubtedly they appreciate the fact, irrespective of politics.

SINGULAR and significant features of the democratic campaign in the east this year are liberal and unrestricted contributions to the campaign fund by the workingmen and factory employes. They are all praying for a reduction of taxes.

LONDON has lately been the scene of several atrocious murders and the great metropolis is shaken to its very depths. The police are powerless to detect the culprits and the worst feature is that the crimes seem to inspire cranks and vicious people to further bloodshed.

HON. LEVI P. MORTON'S letter accepting the nomination for the vice presidency from the republicans is published elsewhere. It is the weakest document ever issued by a candidate and aims solely to mislead voters on the tariff question. It is an ordinary paper anyway it is viewed.

ANNA DICKINSON has not succeeded in pleasing the republicans by her campaign speeches. "She outs with such queer things," says an Ohio paper; and the Richmond, Ind., *Register* remarks that "the republican national committee surprises people by sending such speakers as Miss Dickinson here without knowing what she is going to say."

IN the face of President Cleveland's explicit denial that he uttered the words, "I believe in free trade as I do the Protestant religion," the Daily *News* last evening, repeats the falsehood in an article supplied by the Chicago Home Market club. The *News* owes its readers an explanation and will give them one if its boasted independence amounts to anything.

DAN VOORHEES did not dare to accept Major Calkins' challenge for a public discussion, so the major will go "on his own hook" at the Princess rink on Friday night. Come and hear him.—*Gazette*.

Will the *Gazette* kindly tell us when Major Calkins challenged Mr. Voorhees and publish the challenge, if it exists. The *Gazette* does not know evidently that Mr. Calkins never challenged Senator Voorhees. There was some talk of it by republicans to cover General Hovey's refusal to debate with Colonel Matson. That was the extent of it.

ACCORDING to the latest program the republican tariff bill will be presented to the senate Thursday of this week. The report of the republican members of the finance commitee will be completed at that time, but it will not probably be made public until the next day. Accompanying it will be the report of the democratic minority. It was at first intended to make both the tariff bill and the report public simultaneously, but this plan will be abandoned in view of the fact that their great length will prevent more than a brief abstract from being printed in the newspapers, whereas if given out on different days a much fuller synopsis can be published.

DON M. DICKINSON is enthusiastic over the democratic prospects. He says: "Cleveland's re-election is assured. There is no room for doubt but that we will carry New York, New Jersey and Indiana. The defection that added to Blaine's strength in New York will never help gratify Harrison's ambition. Bourke Cochran and the leaders who were lukewarm in '84 are now red hot for Cleveland. The New Jersey manufacturers are out for tariff reform and Cleveland. Joseph McDonald vouches for Indiana and his statement is assurance double sure. Michigan is all right and will be heard from in November. The party is organized and in splendid trim."

OUR STATESMEN.

How They Are Viewed and Complimented Abroad.

Editor R. D. Dumm, a former proprietor of THE SENTINEL with Hon. Wm. Fleming, has this compliment to a Fort Wayne committee in his paper, the Upper Sandusky *Union:*

Hon. R. C. Bell, Dr. Geo. W. Long and Hon. Chas. F. Muhler, of Fort Wayne, and prominent representative democrats of Indiana, were in the city last Friday, on their way home from Columbus, whither they had gone as a committee to wait upon the old Roman and secure, if possible, his presence at the monster democratic meeting to be held in Fort Wayne on the 17th of October. The committee was successful in their mission as Judge Thurman has promised to be with them. Among the other notable speakers to be at Fort Wayne on the 17th are Hon. Roger Q. Mills, Speaker Carlisle and their own McDonald. It is designed to be the largest political meeting ever held in Indiana. Messrs. Bell, Long and Muhler called at the *Union* and we spent a delicious half hour in rehearsing old times. Mr. Bell is one of the ablest attorneys in Fort Wayne with a state reputation as a popular orator; Dr. Long is the clerk of the courts in his county, and Mr. Muhler, the present mayor of Fort Wayne and has presided over that city for some time. It was the very committee to send after Judge Thurman, for where the irresistable Bob Bell gets in his work something must drop, and this time it was the Old Roman.

National Board of Health.

Prof. Kedzie, of the Michigan University, who personally superintended the examinations of various brands of baking powders on the market, and made an official government report to the national board of health, Washington, D. C., says: "In some brands we found the excrementitious ammonia, in still others we found alum and other foreign ingredients, leaving on our hands, as the results of our labors—Dr. Price's Cream Baking Powder, upon which to fix the seal of purity and and wholesomeness."

Destructive Fire.

ANTWERP, Ohio, Oct. 3.—Early yesterday morning a very destructive conflagration broke out in this city. One entire business block was consumed, which included all the saloons, grocery store of Pocock Bros., Barnett & Chester's agricultural rooms and Yager Bros.' tonsorial parlor. Total loss estimated between $25,000 and $30,000, insurance small. Probable cause, incendiarism.

A Little Joke.

Mr. Henry Rehberg, who owns a large vineyard at Put-in-Bay, has been in the city for a few days on business, and last evening, before leaving, concluded he would present Mr. Pottlitzer, the manager of the commission fruit house, on Columbia street, with two bottles of the wine manufactured by him.

The bottles were safely packed away in his valise and with it he started on his errand of love. He was accompanied by Mr. James Hewes and Mr. James H. Sloan, of the Pittsburg shops. On his way the three stopped at White's Fruit House, where Mr. Rehberg desired to bid good bye to Mr. I. Freiburger, the manager.

He placed his valise on the floor, and, while talking to Mr. F., his two companions opened the valise and substituted a brick-bat for the wine, which they afterwards presented to Mr. Freiburger.

When the party reached the store of Pottlitzer Bros., and Mr. Rehberg opened the valise to make his present to Mr. Pottlitzer, the joke developed itself and was such a good one that the cigars were passed around. Mr. Pottlitzer has the brick-bat and Mr. Freiburger has the wine.

An Officer of the Republican Railroad Club Who Can't Serve.

The republican railroad club held a meeting Saturday evening and elected officers. Among those chosen on that occasion was Mr. James A. Ludington, who was designated as the sergeant-major of the club. His election to the position was without his consent and Mr. Ludington was somewhat surprised when he saw the announcement in the papers.

Although he voted for Mr. Blaine four years ago, he will not cast his vote this year for Mr. Harrison. "I am not training with that crowd," said he to a SENTINEL reporter this morning. "I shall cast my vote this year for Cleveland and Thurman. I do not belong to the Harrison railroad club, and was surprised when I saw I had been elected an officer of it."

Mr. Ludington is a prominent machinist of the Pittsburg shops of this city, and has hitherto acted with the republicans, but will not do so this year.

Onions and Their Kindred.

A writer in one of our exchanges recommends boiled or roasted onions as a most excellent remedy for a cough, and for the clogging of the bronchial tubes which is usually the cause of the cough. He says that if onions are eaten freely at the outset of a cold they may break it up.

He also quotes a medical writer as recommending the giving of onions to children three or four times a week; young onions to be eaten raw, and to be cooked when they get too large and strong.

Another writer says, "During unhealthy seasons, when diphtheria and like contagious diseases prevail, onions ought to be eaten in the spring of the year at least once a week. Onions are invigorating and prophylactic beyond description."

Whether the virtues here ascribed to onions are exaggerated or not, it is certain that the onions contain an oil which acts strongly on the secretions of the bronchial tubes, kidneys, and skin. This oil is stimulant and tonic, and thus promotes digestion. The onion is also nutritious, being rich in nitrogenous elements and in sugar. Roasted, it makes, with oil, a stimulating poultice for suppurating ulcers.

In warm countries its flavor is more delicate, and it is extensively used for food. In Spain and Portugal it is often eaten raw, and, with a piece of bread, forms the dinner of the working people. As boiling largely dissipates the oil, when used medicinally it should be roasted rather than boiled.

Belonging to the onion family, and the most self-asserting member of it, is garlic, from which, mainly, the oil is obtained, and hence is called "oil of garlic." It is extensively used for food in southern European countries.

Another member of the class is the leek, the mildest of all. It has no proper bulb. It is used mainly for the lower part of the stem, which is blanched and enlarged by earthing. It is a favorite among the Welsh and has become so with the Scotch.

Cives, or chives, constitute still another member of the family. They are very small, and grow wild on the banks of rivers in some parts of Europe and Asia. They have pretty flowers, bluish red, and sometimes flesh colored, and are often cultivated as borders for plots. The young leaves are also used for flavoring soups and dishes, and they may be cut repeatedly in the season. All these plants have the same general characteristics as the onion.—*Youth's Companion.*

Women Who Work for Their Husbands.

If a man is a real man it is safe for a woman to continue earning wages after she is married, but I think there are hundreds of men to-day, yes, thousands, who have been ruined because they were not compelled to support their wives. If a man who earns small wages marries a woman capable of earning as much as himself, there are nine chances to one that he will develop extravagant habits because of the added income of his wife. If they could agree and hold to the decision that they were to live on the husband's income and let the wages of the wife accumulate as capital for business in which they both could engage it would be well; but their wages would probably be largely dissipated in personal adornment, the passion for which, especially among the middle classes, is the bane of the American people. There is one class of women wage-earners to whom I have given much attention who suffer considerably through their own ignorance. I refer to the married women who work in factories, or at home, making underclothing and other articles, and who supplement their husband's wages in order to cover their own deficient knowledge of housekeeping. Such women were wage-earners before they were married, and never had an opportunity to learn how to manage a house, so that after marriage they have to earn money to supply their want of knowledge, not only of cooking, but of sewing. Such women buy ready-made clothes for themselves and their children, which, of course, are not so durable as could be had for the same money if they made them themselves. Not knowing how to economize in cooking, they spend more money in that way than they should. Out of three hundred women wage-earners I visited in tenement houses only five claimed they were able to make bread, and only one really did make it. Only two were able to cut and make garments for themselves and their children. I think that these women are all conscious of their deficiencies, but they do not know how to overcome them. They have some spare time but they waste it. Their cooking is of the most primitive and unwholesome description, and their meals are supplemented with beer, which is looked upon as just as much an article of diet as bread.—*The Epoch.*

The Gray Hair Puller.

Possibly the most unique method of earning a living known is that adopted by a big, rosy, 20-year-old blonde, who finds engagements with women just lamenting their first gray hairs, to weed out, so to speak, those obnoxious reminders of advancing years. The gray hair puller is gentle in methods of treatment, and makes periodic visits at intervals of a few weeks, spending from half an hour to two or three hours, letting down the hair, combing it out and spying for tell-tale silver threads. She carries an innocent-looking little reticule, which contains various glycerine and rose water preparations for a healing application when the work of torture has been done. It is not especially disagreeable work, and it is said to pay. —*Kansas City Journal.*

"I can not praise Hood's Sarsaparilla half enough," says a mother whose son, almost blind with scrofula, was cured by this medicine.

Blood-Letting for Pneumonia.

Pneumonia, a disease which is justly dreaded, is at present receiving much attention from physicians. At a recent meeting of the Medical Association at Baltimore the question as to whether it is contagious was discussed, and now the *Medical Record*, following the example of Dr. Hartshorne, argues in favor of blood-letting in opposition to the modern treatment of the disease. It appears that from 1845 to 1847, when bleeding prevailed in the treatment of pneumonia, but one person in sixteen died, while, on the contrary, from 1884 to 1886, after this treatment had been abandoned, the proportion of deaths was 1 in 3.2. Facts are stubborn things; and the question arises whether, in every case, we have always gained by ignoring the simple and old-fashioned methods of healing.

"I have taken, within the past year, several bottles of Ayer's Sarsaparilla, and find it admirably adapted to the needs of an impoverished system. I am convinced that this preparation, as a blood purifier, is unequaled." C. C. Dume, Pastor Congregational church, Andover, Me.

Advice to Mothers.—Mrs. Winslow's Soothing Syrup should always be used when children are cutting teeth. It relieves the little sufferer at once; it produces natural, quiet sleep by relieving the child from pain, and the little cherub awakes as "bright as a button." It is very pleasant to take. It soothes the child, softens the gums, allays all pain, relieves wind, regulates the bowels and is the best known remedy for diarrhœa, whether arising from teething or other causes. Twenty-five cents a bottle.

"I must admit there are some advantages in being a dude, after all, George," said Mildred to her accepted lover.

NOT A PIMPLE ON HIM NOW.

Bad with Eczema. Hair all gone. Scalp covered with eruptions. Thought his hair would never grow. Cured by Cuticura Remedies. Hair splendid and not a pimple on him.

I cannot say enough in praise of the Cuticura Remedies. My boy, when one year of age, was so bad with eczema that he lost all of his hair. His scalp was covered with eruptions, which the doctors said was scald head, and that his hair would never grow again. Despairing of a cure from physicians, I began the use of the Cuticura Remedies, and, I am happy to say, with the most perfect success. His hair is now splendid and there is not a pimple on him. I recommend the Cuticura Remedies to mothers as the most speedy, economical, and sure cure for all skin diseases of infants and children, and feel that every mother, who has an afflicted child will thank me for so doing.

Severe Scalp Disease Cured.

A few weeks ago my wife suffered very much from a cutaneous disease of the scalp, and received no relief from the various remedies she used until she tried Cuticura. Catarrhal Dangers.

To be freed from the dangers of suffocation while lying down; to breath freely, sleep soundly and undisturbed; to rise refreshed, head clear, brain active and free from pain or ache; to know that no poisonous, putrid matter defiles the breath and rots away the delicate machinery of smell, taste and hearing; to feel that the system does not, through its veins and arteries, suck up the poison that is sure to undermine and destroy, is indeed a blessing beyond all other human enjoyments. To purchase immunity from such a fate should be the object of all afflicted. But those who have tried many remedies and physicians despair of relief or cure.

Sanford's Radical Cure meets every phase of Catarrh, from a simple head cold to the most loathsome and destructive stages. It is local and constitutional. Instant in relieving, permanent in curing, safe, economical and never failing.

Sanford's Radical Cure consists of one bottle of the Radical Cure, one box of Catarrhal Solvent, and one Improved Inhaler, all wrapped in one package, with treatise and directions, and sold by all druggists for $1.00. *

Have You Any Idea What It Costs TO MAKE A CHICAGO DAILY NEWS?

You haven't? Well, let us give you just a glimpse into the business, perhaps it will interest you.

To begin with, the work of the paper is divided into Seventeen Different Departments, each under its own responsible Superintendent. Let us take them in order as they stand on the weekly pay-roll:—

1. **The Editorial Department.**—This includes managing editors, city editors, telegraph editors, exchange editors, editorial writers, special writers, and about thirty reporters. THE DAILY NEWS staff is admittedly without a superior in the West, and numbers 50
2. **The Telegraph Room.**—To save time special wires are run into THE DAILY NEWS building, and the paper's own operators take the messages and hand them immediately to the telegraph editor. The number of operators is 8
3. **The Compositor's Room.**—When "copy" has passed the hands of the proper revising editor it goes to the type-setter. There are a good many of him in THE DAILY NEWS office—on an average . . 73
4. **The Linotype Room.**—But the compositor doesn't do all the type-setting. The "Linotype" machine "sets type" by casting a line-o'-type, on somewhat the same principle as the type-founder casts a single type. Fourteen of these machines are in use in THE DAILY NEWS office, and the number of persons required in this department is 20
5. **The Artists' and Engravers' Department.**—But the metropolitan daily now gives its readers not only reading matter, but also illustrations. By the aid of good artists, zinc etchers and photography by electric light THE DAILY NEWS is now printing the best newspaper illustrations in America. This takes the best service of skilled workers to the number of 7
6. **The Stereotype Foundry.**—The matter, type and pictures—being now "locked up in the forms" the work is next transferred to the foundry. A metropolitan daily no longer prints from its type. In order to print a large edition quickly it is necessary to *multiply the printing surfaces*, and this is accomplished by casting semi-cylindrical stereotyped plates, from which, when they have been fastened to the presses, the printing is done. Of stereotypes THE DAILY NEWS 8
7. **The Press Room.**—THE DAILY NEWS uses six double perfecting presses, capable of printing 100,000 complete papers per hour. To run these there are required men to the number of 25
8. **The Mailing and Delivery Department.**—"The mailers" and the delivery clerks handle over a million papers a week. The force numbers 25
9. **The Engine Room.**—To supply the motive power requires three steam boilers of 175 horse-power capacity, and three engines with an aggregate of 270 horse-power. All departments are lighted by the Edison incandescent system, which here comprises three dynamo machines and 500 lamps. The employes of this department number 5
10. **The Circulation Department.**—The paper is now a manufactured article, and it is the business of this department to develop the market for it. The average number of workers is 16
11. **The Subscription Room.**—All the subscriptions from out-of-town, whether of individual readers or wholesale news agents, pass through this department, and this department employs on the average . . . 17
12. **The Business Office.**—The general clerical work of the paper, such as receiving and caring for the advertisements—of which over fifteen hundred are received and handled every day,—receiving and paying out cash, the general bookkeeping of the business, requires a counting-room force of 27
13. **The Care of Building** requires the constant service of three janitors 3
14. **The Watchman.**—To insure perfect protection against risk of fire two watchmen are constantly on duty 2
15. **The New York Office.**—This engages the entire time of a general manager and assistant 2
16. **The Washington Bureau.**—In charge of its own special Washington staff correspondent 1
17. **The Milwaukee Bureau.**—To facilitate Northwestern news gathering, one man 1

From which it appears that the number of regular employees is 203

And the pay roll runs from $5,500 to $6,000 per week, aggregating during the year $300,000.

Then there is even a larger annual expenditure for white paper, and telegraph and cable tolls sometimes run nearly a thousand dollars a week. Take it all together the expenditures of THE DAILY NEWS for the year 1888 will vary very little from $600,000.

The foregoing takes no account of the special correspondents at hundreds of places throughout the country and European correspondents; of fifteen hundred newsdealers throughout the Northwest who distribute THE DAILY NEWS to its out of town [illegible] of two hundred city [illegible] wholesale city dealers with their horses and wagons; of one hundred and fifty branch advertisement [illegible], all connected with the main office by telephone, nor of the about three thousand newsboys who [illegible] in part selling THE DAILY NEWS in Chicago. This is what it costs the publisher to deliver [illegible] the reader to buy it one cent a day. Measured by the cost of its production, THE DAILY NEWS is the cheapest [illegible]. It is sold by all newsdealers, or will be mailed, postage paid, for [illegible]

Dr. Neal Hardy is an eminent and skillful physicinn and surgeon who enjoys a state reputation in Ohio, and his connection with the Fort Wayne Medical college will certainly give it additional prestige. Aside from professional prominence, the doctor is a gentleman of many brilliant parts in other respects, and Fort Wayne is to be congratulated upon its good fortune in securing his presence as one of its citizens. It is said that a branch of the Salvation Army will soon establish itself in this city and that they will parade the streets with rattling drums and tambourines as they did of yore. If this is so our political clubs will have to retire from the field when they are out on parade, for the drum corps of the Hendricks and Tippecanoe clubs can not equal them in noise.

The Jeffersonians of Wayne township and the Sixth and Seventh wards have now completed arrangements for their grand democratic rally, bonfire, pole raising and fire works on the Hamilton commons, on Thursday evening, Oct. 11, 1888. SWITCHES OFF.

Official Changes on the Muncie, and Mr. Evans is Honored.

THE SENTINEL wants to commend Supt. W. W. Worthington's management of the Muncie railroad and its affairs very heartily. He has the happy faculty of rewarding those about him and does it with a grace that makes his work all the more manly. A vacancy in one of the offices of his line always means a promotion for the most deserving. He has sent out such men as Mr. Bruce Beamer, Mr. Robert Kinnaird and Mr. Sam Wikel, an elegant gentleman, succeeds them in the line of promotion. Some days ago Mr. Charles Hoffman, long the auditor of the road and a popular and faithful one at that, tendered his resignation and Supt. Worthington appoints his chief clerk, Mr. John M. Evans, to succeed Mr. Hoffman. Mr. Evans is a very pleasant young gentleman, always agreeable and cannot fail to win wide favor in his new position. Mr. Hoffman will engage in business at Denver, Col.

Mr. Hoffman has purchased an interest in an extensive harness business in that city, and will leave for his new western home as soon as he can arrange his property affairs here. He is a thorough business man, is well met socially, and has hosts of friends. He will be an acquisition to the business community of Denver, and will reach the summit of mercantile fame if such a thing is possible.

THE SENTINEL sends its best wishes with him, and as heartily greets Mr. Evans, the young man who succeeds him in this city, who has earned his new honors by an upright career and devotion to his duties.

COL. C. C. MATSON.

The Democratic Standard Bearer in the City.

Among the callers at the democratic headquarters to-day were Col. C. C. Matson, democratic candidate for governor, and Col. John R. East, of Bloomington, one of the prominent democrats of the state.

They spoke at Decatur last night to a great meeting and were in the best of spirits.

"I find the democrats aroused and loyal everywhere," said Colonel Matson, "and could not have our prospects brighter if I were to fix them myself. The republicans are very active and are working hard. I have not the slightest doubt that the state will go democratic and every day strengthens my faith."

Colonel East spoke most encouragingly of the situation, and could not devise any way to accomplish democratic defeat while the people are as watchful as they are at present.

The distinguished visitors were tendered quite an ovation at the headquarters and at the Wayne house. Colonel Matson is personally popular in this city, and deserves to be, for no finer gentleman lives than the gallant soldier candidate.

Colonel Matson and Colonel East speak at Auburn to-night, and just before their departure Mr. Matson remarked, "I will be in the city to greet Judge Thurman Oct. 17."

Beware of Scrofula

Scrofula is probably more general than any other disease. It is insidious in character, and manifests itself in running sores, pustular eruptions, boils, swellings, enlarged joints, abscesses, sore eyes, etc. Hood's Sarsaparilla expels all trace of scrofula from the blood, leaving it pure, enriched, and healthy.

Is one of the most disagreeable diseases caused by impure blood. It is readily cured by Hood's Sarsaparilla, the great blood purifier.

William Spies, Elyria, O., suffered greatly from erysipelas and salt rheum, caused by handling tobacco. At times his hands would crack open and bleed. He tried various preparations without aid; finally took Hood's Sarsaparilla, and now says: "I am entirely well."

"My son had salt rheum on his hands and on the calves of his legs. He took Hood's Sarsaparilla and is entirely cured." J. B. Stanton, Mt. Vernon, Ohio.
